

HELP FROM CONGRESS

The President Pleads For the Flood Sufferers.

BOTH HOUSES ACT AT ONCE.

Two Hundred Thousand Dollars Appropriated For Relief to Be Expended Under the Directions of the Secretary of War—The Resolution Signed by the President and at Once Became a Law.

WASHINGTON, April 8.—President McKinley yesterday sent a message to congress asking that measures be taken to relieve the suffering occasioned by the western floods. The message is as follows:

To the Senate and House of Representatives:

Information which has recently come to me from the governors of Arkansas, Mississippi and Louisiana and from prominent citizens of these states and Tennessee, warrants the conclusion that widespread distress, involving the destruction of a large amount of property and loss of human life, has resulted from the floods which have submerged that section of the country. These are stated, on reliable authority, to be the most destructive floods that have ever devastated the Mississippi valley, the water being much higher than the highest stage it has reached before.

From Marion, Ark., north of Memphis, to Greenville, Miss., a distance of more than 250 miles by river, it is reported there are now at least 50 towns and villages under water; and a territory extending from 100 miles north of Memphis to 200 miles south, and from 5 to 40 miles wide, is submerged. Hundreds of thousands of acres of cultivated soil with growing crops are included in the submerged territory. In this section alone there are from 50,000 to 60,000 people whose property has been destroyed and whose business has been suspended. Growing crops have been ruined, thousands of cattle have been drowned and the inhabitants of certain areas threatened with starvation. As a great majority of the sufferers are small farmers, they have thus been left entirely destitute and will be unprepared for work even after the floods have subsided.

The entire Mississippi valley in Arkansas is flooded and communication with many points cut off. In Mississippi a like condition exists. The levees in Louisiana with a single exception, have held, but the water is rising and the situation there is reported as being extremely critical.

Under such circumstances the citizens of these states look for the co-operation and support of the national government in relieving the pressing cases of destitution for food, clothing and shelter, which are beyond the reach of local efforts. The authorities who have communicated with the executive recognize that their first and most energetic duty is to provide as far as possible the means of caring for their own citizens; but nearly all of them agree in the opinion that after their resources have been exhausted, a sum aggregating at least \$50,000 and possibly \$200,000 will be required for immediate use.

Precedents are not wanting that in such emergencies as this congress has taken prompt, generous and intelligent action, involving the expenditure of considerable sums of money, with satisfactory results. In 1874 \$500,000 was appropriated, and in 1882, \$350,000 was also appropriated for relief in the same direction, beside large sums in other years.

The citizens' relief committee of Memphis, which has taken prompt action, has already cared for from 6,000 to 7,000 refugees from the flooded districts, and they are still arriving in that city in large numbers. Supplies and provisions have been sent to the various points in Arkansas and Mississippi by this committee; but the most that can be done by these efforts is to partly relieve the most acute cases of suffering. No action has yet been taken for the great majority of the inhabitants living in the interior whose condition has already been described.

Under these conditions and having exerted themselves to the fullest extent, the local authorities have reluctantly confessed their inability to further cope with this distressing situation unaided by relief from the government.

It has therefore seemed to me that the representatives of the people should be promptly informed of the nature and extent of the suffering and needs of these stricken people and I have communicated these facts in the hope and belief that the legislative branch of the government will promptly reinforce the work of the local authorities in the states named.

WILLIAM MCKINLEY.

Executive Mansion, April 7, 1897.

The reading of the message in the senate was followed by a resolution offered by Mr. Jones (Dem., Ark.) appropriating \$150,000 for the relief of the sufferers and authorizing the use of government boats. It was unanimously passed.

In the house Mr. Catching (Dem., Miss.) offered and obtained consent for the immediate consideration of a resolution appropriating \$200,000 for their relief. It was also unanimously passed.

The senate then accepted the house provision for \$50,000 extra.

The resolution as finally passed is as follows:

"Joint resolution—Resolved, That the sum of \$200,000 is hereby appropriated out of any money in the treasury not otherwise appropriated, to be expended by and under the direction of the secretary of war in the purchase and distribution of subsistence stores to such destitute persons as may require assistance in the district overflowed by the Mississippi river and its tributaries, and by the Red River of the North, by the re-

cent floods. And the secretary of war is authorized to use the steamers and other boats and vessels belonging to or now employed by the government upon the Mississippi river and its tributaries, in the transportation and distribution of the supplies furnished by the United States or individuals to and among the said destitute and suffering people, and he may employ such other means of transportation as he may deem necessary to carry the purpose of this joint resolution into effect."

As soon as the resolution was signed by the speaker it was taken to the White House, where President McKinley was waiting for it, having delayed his trip down the bay until the resolution passed congress. The president immediately attached his signature to the document, thus making it a law, the first of the new administration.

BATTLE IN CUBA.

According to Spanish Accounts the Insurgents Were Defeated.

HAVANA, April 8.—A detachment of troops from Chinarones, province of Matanzas, while reconnoitering the heights of Union, was fired upon at Audaz plantation. The troops replied to the fire, drove the enemy back and continued the pursuit to the farm of La Vaca, on the heights of Dichosa, where the government force destroyed seven insurgent camps, after four hours fighting, and dislodged the enemy from entrenched positions at the point of the bayonet. The insurgents were commanded by Clements Gomez and Reginald Alfonso. They left 28 men killed on the field. The troops lost five men killed and had several wounded.

Captain General Weyler arrived at Juncos, province of Puerto Principe yesterday morning on board the Spanish gunboat Satellite and the local authorities were waiting to receive him. After the usual compliments had been exchanged the captain general visited and inspected several of the forts along the military line, accompanied by his chief of staff, Colonel Escribano. General Weyler expressed himself as being highly satisfied with the fortifications. The captain general inspected the forts of Dominguez and Colonia.

At Ciego de Avila, the captain general, in the name of the king, promoted Lieutenant Alfonso Sanchez, one of the wounded, to the rank of captain.

Sanguily and Lachuga Surrender.

JACKSONVILLE, Fla., April 8.—General Julio Sanguily and Colonel Lachuga, hearing that warrants had been issued for their apprehension on the charge of aiding and abetting a Cuban expedition, surrendered themselves yesterday afternoon to the United States officers. They were taken before the United States commissioner, Egan, and their hearing continued until Saturday morning. The information was furnished by Senor Potons, Spanish vice consul for Jacksonville, and the affidavit states no time or place at which the alleged offense was committed. He is said to have sworn to the information at the direction of Minister De Lome of Washington. The prisoners were remanded to the care of J. M. Barrs, who became surety for their appearance on Saturday.

Sherman Talks About General Rivera.

WASHINGTON, April 8.—Secretary Sherman stated last night that he had assurances that General Rivera, the insurgent leader would not be executed but would be treated as a prisoner of war. General Rivera was captured after being wounded in a recent battle and it was feared for a time that he would be executed by the Spanish authorities for his participation in the rebellion.

The Dauntless Again.

JACKSONVILLE, Fla., April 8.—The steamer Dauntless was taken into custody of the United States court yesterday on motion of the attorney general for the owner of the boat. The bond was ordered cancelled and a deputy marshal was placed in charge. The steamer will now be permitted to leave port.

NAMED FOR OFFICE.

Nothing Very Big Except to the Person Appointed.

WASHINGTON, April 8.—The president has sent to the senate the following nominations:

Justice—To be attorneys of the United States, Thomas H. Barnes, for the western district of Arkansas; Pliny L. Soper, for the northern district in Indian Territory.

Postmasters—Arkansas, Thomas D. Hawkins, at Morrilton; Georgia, Robert F. Milner, at Newnan; Illinois, William A. McKnight, at Alexis; Indiana, Laverne B. Stevens, Bluffton; Ellis G. Darnell, Lebanon; William G. Silver, Pendleton; Iowa, Frank C. Downey, at Dexter; Kansas, John H. Winne, at Manhattan; Nebraska, Dennis Tracy, at Cedar Rapids.

Navy—Commodore Montgomery Sicard, to be rear admiral; Captain Albert Kautz, to be commodore; Lieutenant R. G. Davenport, to be lieutenant commander; Lieutenant E. B. Barry, to be lieutenant commander.

The President Takes a Vacation.

WASHINGTON, April 8.—The president at 2 p. m., left the White House with Mrs. McKinley, Mrs. Saxton, Mr. and Mrs. Porter and Dr. Bates, the president's physician, and Mrs. Bates, for the navy yard, where they boarded the Dolphin for a few days' vacation on the Potomac. The exact time of the president's return is not known, but if the weather continues good and Mrs. McKinley's health seems to be benefited by the trip it is probable the party will not return before the last of the week.

FIGHTING IN CRETE.

A Small Battle in the Outskirts of Candia.

TURKISH OUTPOSTS ATTACKED.

They Maintain Their Position With a Loss of Two Killed and Eleven Wounded. British Admiral Shot At—Insurgents Threaten to Attack Sitia—The War Feeling Growing Along the Frontier.

CANIA, April 8.—Brisk fighting took place yesterday outside of Candia. The insurgents, in considerable strength, advanced from four points and attacked the Turkish outposts. The latter maintained their positions with the loss of two men killed and 11 wounded.

There were conflicts in various parts of the island yesterday. In every instance the insurgents were the aggressors. They have captured several canons at Kissamo.

The insurgents of the vicinity of Kissamo, at the western end of the island, have written to the foreign admirals giving notice that they are projecting an attack upon the fort at Kissamo. The Turkish garrison there has asked for assistance.

Two thousand insurgents have crowded around Sitia, at the eastern end of the island, and a French warship has landed five guns in anticipation of an attack upon that place.

Rear Admiral R. H. Harris of the British fleet was shot at by a Moslem irregular while crossing a field near Suda. The bullet plowed the grass at his feet. This is his second escape.

A fire has broken out at Candia near the cathedral and a number of houses are now in flames. The British and Italian troops are demolishing the adjacent buildings in order to check the spread of the conflagration.

Sultan Thanks the Czar.

LONDON, April 8.—The Paris correspondent of The Times says the sultan has addressed an autograph letter to the czar, expressing his extreme satisfaction at the energy which the czar has displayed in getting the powers to adopt the principle of the integrity of Turkey. The sultan hopes that neither Russia nor the other powers will abandon that attitude.

What the Porte Is Willing to Do.

LONDON, April 8.—A dispatch to The Times from Constantinople says it is understood there that the porte has notified the powers of its willingness to withdraw the Turkish garrison from Crete immediately if the Greeks will previously withdraw and the powers guarantee to pacify the island.

War Feeling Growing.

LARISA, April 8.—The war feeling grows here steadily. The troops are awaiting anxiously for the news as to the decision of the government. The feeling among officers and men is one of extreme tension.

Quiet in Athens.

ATHENS, April 8.—A complete calm characterizes the whole city, although placards have been posted in many places, strongly advocating war. The evening newspapers censure the clamor for war.

FOUR THOUSAND MEN IDLE.

The Illinois Steel Company at South Chicago Has Closed Down.

CHICAGO, April 8.—Four thousand men were forced out of employment by the closing of the works of the Illinois Steel company at South Chicago last night. This action was taken by the officials to head off a strike. Employees declare they will resist the lockout. Officials assert that the works will be reopened next Monday.

Rail straighteners are responsible for the trouble. The officials of the company claim that the workmen broke their yearly contract, which was made a few months ago. As a result of the strained relations, it is said, the Amalgamated Association of Iron and Steel Workers is in great danger of being disbanded. Vice President Davis thinks nothing of this kind will happen.

General Manager Walker of the Illinois Steel company says the strike is but a dispute among the workmen and the company has nothing to do with the matter further than holding employees to their contract.

It is said that the company has reduced the scale of wages since the fall in the price of rails, and the question has been a much disputed point ever since.

Rail straighteners have discussed it with the managers at different times and threatened to quit work, as they claimed they could not make as much money as when the price of rails was above \$20.

The majority of the workmen swear vengeance against the rail straighteners for closing the works.

FEDERAL AID ASKED.

An American Not Properly Treated by the Mexican Government.

AUSTIN, April 8.—The house of the Texas legislature has adopted a resolution instructing the Texas members of congress to demand of the federal authorities an investigation of the case of Max Stuart, a Texan and a Confederate veteran, who has been in jail in Mexico for two years, and who, it is claimed, is being denied a fair trial and has been sentenced unjustly to be hanged.

The friends of Stuart sometime ago petitioned President Cleveland to intercede in his behalf, but nothing was done

and the legislature yesterday memorialized the Texas members in congress and urged them to demand an immediate investigation, looking to Stuart's release. He was arrested for shooting a Mexican policeman.

TESTING THE LEVEES.

The Crest of the Rise Will Soon Be Opposite Vicksburg.

MEMPHIS, April 8.—The supreme test of the levees south of Vicksburg and Arkansas City is fast approaching. The river at Vicksburg has been falling for some days on account of the rush of waters from the main channel through the crevasse above into the Yazoo delta. This water is again returning to the channel through the mouth of the Yazoo river, and its influence is being felt at Vicksburg, where the gauge is now marking higher figures. Within a few days the crest of the rise will be opposite Vicksburg and the channel will continue to deepen unless the levees break.

The Louisiana people keenly realize the gravity of the situation. The destruction wrought by the waters in the St. Francis basin and the Yazoo delta may be repeated in the Tensas basin, which begins in southeastern Arkansas and extends through the northeastern counties of Louisiana. Material and men are being hurried forward and the effort that had marked the work of those in charge of the lower levees has been doubled. The news of the action of the national congress in appropriating a large sum for the relief of the sufferers was gratefully received here and throughout the overflowed districts. The prompt action of the president and the secretary of war is especially commended.

The tax on the energies of the people of Memphis has been great, previous demands having been fully met. The river at Memphis is slowly falling and the gauge at Cairo shows a gratifying decline. For the first time in four weeks, the Kansas City, Memphis and Fort Scott railroad sent its trains out over the line passing through the St. Francis basin.

The citizens' relief committee, through W. A. Gager, chairman, issued the following last night:

"The citizens' relief committee of the city of Memphis, having received official information from Washington that the government has appropriated \$200,000 for the relief of the flood sufferers and that said appropriation is immediately available, beg to announce that their recent call on the public is hereby withdrawn.

"The citizens' relief committee take this method of thanking a most generous public for the many donations received and to assure each and all that their contributions have done an immense amount of good and have been highly appreciated."

AN OBNOXIOUS CIRCULAR.

A Number of Insurance Companies May Be Barred From Doing Business.

INDIANAPOLIS, April 8.—Members of the state board of tax commission maintain that some action must be taken at once against the insurance companies doing business in this state, for having sent out a circular instructing holders of paid-up policies and policies that have a cash surrender value to not answer questions on the assessment list which would record the value of the policies.

It is suggested that the companies be barred from doing business in the state until the circular is recalled. Some of the lists have already been returned with the two questions unanswered.

An Insane Man Causes a Panic.

ECKERTY, Ind., April 8.—Last evening, shortly before the closing hour, Franklin Poore, a young farmer of muscular build, entered the local bank and, producing a package, remarked, "Here is enough dynamite to blow Eckerty into eternity." Before the cashier could realize the situation, he was on his back, in the grip of a frenzied man. His cries brought assistance, and Poore was overpowered and placed in jail. He was undoubtedly insane, and steps will be taken to transfer him to the hospital. The package of supposed dynamite was composed of ashes and a few beans.

Will Protect the Fish.

LAFORTE, Ind., April 8.—The Goshen Rod and Gun club is taking steps to enforce the new law for the protection of fish in the hundreds of lakes scattered through northern Indiana. The appointment of a deputy warden will be recommended in each county, who will enforce the law without fear or favor. The lakes to which particular attention will be given are Syracuse, Wawasee and Tippecanoe, which are favorite fishing grounds of Indianapolis pleasure seekers.

End of a Three-Year Strike.

MARION, Ind., April 8.—The strike at the factory of the United States Glass company at Gas City has been declared off after a struggle lasting over three years. This is a victory for the glass company. It is estimated that the maintenance of the idle workmen has cost the National Flint-glass Workers' union not less than \$50,000.

Lamont President of a Railroad.

NEW YORK, April 8.—It is stated on high authority that Colonel Daniel S. Lamont has been decided on as president of the Northern Pacific railroad and that the appointment will be announced within a week. The appointment is understood to have been brought about largely by President James J. Hill of the Great Northern, and it is but additional evidence of the close compact that is forming between the two railroads.

WILL HAAS RESPITED

No Electrocution in the Columbus Penitentiary Annex.

THE DYNAMO BURNED OUT.

At the Last Final Test the Machinery Proved Defective—Prohibitionists Nominate a Complete State Ticket at Columbus—Chicken Thief Shot at Cleveland. Other Ohio State News.

COLUMBUS, O., April 8.—Although Governor Bushnell refused yesterday afternoon to commute the sentence of William Haas, the Cincinnati rapist and murderer, the electrocution did not take place this morning. At 3:30 yesterday afternoon while a final test of the electrical machinery at the penitentiary was being made, the dynamo burned out. The machinery had been tested five times previously and the dynamo had carried 1,500 to 1,600 volts readily. The final test was just being finished when the accident occurred and the attendant in the electrocution room stated the current then registered only 500 volts, although it had registered as high as 1,800 volts during the test. As no one was in the dynamo room at the time of the accident except the prisoners detailed to take care of the machinery, some of the officials suspected the dynamo had been tampered with, but the prisoners indignantly denied the imputation.

Harry Caulfield, the electrician, after an inspection, gave it as his opinion that the burning out of the dynamo was due to the collection of copper dust on the interior of the machine. He thought it possible to repair the dynamo so that the electrocution could take place, but the probability of another accident induced the board of managers to question the advisability of proceeding with the electrocution. If the electrocution should fail or there should be any scene they would be condemned by the public. Conference was accordingly sought with Governor Bushnell and it was decided to grant the condemned man a respite until the dynamo could be repaired and tested.

Haas was respited until April 21, the date for the electrocution of William Wiley, the Cincinnati wife murderer.

Contrary to previous custom the death warrant had been read to Haas during the afternoon. He was found playing checkers with the other annex inmates and when the warrant had been read, resumed the game as though there had been only an ordinary interruption.

Haas, who is only 19 years old, maintained his indifference during the afternoon and evening and he was not notified of the respite until late last night.

PROHIBITION CONVENTION.

Complete Ticket Placed in Nomination at Columbus.

COLUMBUS, O., April 8.—The prohibition state convention nominated the following ticket:

Governor—Rev. J. C. Holliday, Muskingum county.

Lieutenant governor—John Dana, Stark county.

Attorney general—Olin J. Ross, Ross county.

Treasurer—Samuel Wells, Highland county.

Judge of the supreme court—E. J. Pomeroy, Cuyahoga county.

Clerk of the supreme court—H. F. Lutz, Stark county.

Member of state board of public works—Madison L. Christian, Butler county.

Commissioner of common schools—Professor T. H. Peyton, Muskingum county.

Though the term of State Auditor Guilbert does not expire until January, 1900, the convention nominated as a candidate for this office, Mahlon Rouch of Wayne county.

There was a long discussion over the proposition to nominate a woman for state school commissioner, Mrs. Annie Clark of this city being a candidate. It was the opinion of the majority that a woman could not hold the office.

A resolution mildly condemning the Anti-saloon league was adopted. Its objects are endorsed, but its methods are condemned.

The platform declares the question of abolition of the traffic in intoxicants to be the only issue. Both great parties were arraigned for continuing the traffic by upholding the Dow law. Woman's suffrage is demanded, and all voters called upon to support a demand for it. There is no reference to the coinage question in the platform.

Shot a Chicken Thief.

CLEVELAND, April 8.—C. C. Morgan of Etna street heard the burglar alarm attached to his henhouse ring late Tuesday night, and, getting his revolver, investigated. In the henhouse he found the thief, who knocked him down and began kicking him. Morgan fired four shots at his antagonist, who thereupon broke away and disappeared in the darkness. At daylight the thief's body was found in a ravine nearby with three bullet holes in it. It was identified as that of Charles Nelson, a young carpenter living on Broadway.

CLEVELAND, April 8.—The board of control changed the name of Kissam street to Ellendale avenue on the petition of the pretty young women on the street, who objected to the former because of its suggestiveness.

CHICAGO falls into line with a big Democratic victory. Everything seems to be coming our way just now. Keep it up.

Of the thirty-four Aldermen chosen at Chicago this week, the returns point to the election of twenty-six Democrats, four Republicans and four Independents. Three of these Independents are Democrats who went upon the ticket by petition.

HERE'S an illustration of "before and after taking" that doesn't need a diagram:

THEN. NOW.
The National deficit for February, 1897, the last month of Democratic rule, was \$4,395,000.
The National surplus for March, 1897, the first month of Republican rule, was \$9,001,000.

—Public Ledger.

And don't forget all this surplus was accumulated under the Democratic Wilson bill.

DECREASE IN LIVE STOCK.

Big Falling Off in the Number of All "Meat Animals"—Figures From the Department of Agriculture.

The annual report of the department of agriculture, showing the number of head of live stock in the country on January 1st, 1897, exhibits a remarkable decrease in all meat animals.

The supply of "other cattle" is placed at 30,508,000, a smaller number than in any year since 1895. The number of sheep is stated to be 36,119,000, which is lower than at any time since 1887. The number of swine is placed at 40,600,000, which is lower than at any time since January 1st, 1881.

The total number of meat animals of all kinds is placed at 123,896,000. The number has not been so low since January 1st, 1881.

The number of milk cows is placed at 15,942,000, a shortage of 195,586, as compared with a year ago, but it is a smaller number than there has been in the country since January 1st, 1889. The big year in milk cows was 1895, when they numbered 18,504,629. The big year in "other cattle" was 1892, when they numbered 37,651,239; 1884 was the big year in sheep, when the number was 50,626,626; 1892 was the big hog year, the number then being 52,398,019. This was also the big year in meat animals of all kinds, when the aggregate was 151,403,974.

The New Infernal Machine.

(Pittsburg Post.)

The science of killing is keeping pace with the progress in all other branches of endeavor. The English war office is testing this week a machine gun capable of discharging 1,000 shots in 123 seconds. On a recent trial it fired eleven shots a second. The man in charge of firing wears asbestos gloves. This kind of progress is welcome, as in making wars more costly and destructive it makes nations consider well before they engage in them. It also puts the weaker powers on an equality with the greater. Killing by machinery at the rate of a dozen shots a second from a single weapon does away with the need of great armies, for with such armament great numbers of men are at a disadvantage.

Sues Governor Bradley.

FRANKFORT, Ky., April 5.—C. T. Wilson, of Mt. Sterling, Ky., filed a mandamus suit against Gov. Bradley in the Franklin Circuit Court to-day, seeking to compel the Governor to approve the expense account incurred by Wilson while acting as the State's agent to bring Abraham Joseph from New York to Kentucky. Joseph was wanted in Kentucky for some crime, but when Wilson presented papers the New York Governor declined to allow Joseph to come.

BUTTONS MADE OF MILK.

Cows Will Also Supply Us With Combs, Brush Handles, &c.—An English Invention.

[New York World.]

For a long time buttons and other articles for which bone is generally used have been made from congealed blood, purchased by the button-makers at the slaughter houses and treated with some substance that hardens it to the sufficient consistency. From blood to milk is a long remove, but the same articles that are made from blood can be made from milk by a process invented by an Englishman named James Callander and soon to be introduced into this country.

The milk used is the skim milk that is of little use for domestic purposes and can be obtained very cheaply. It is the milk that remains after the cream has been skimmed off. The process of turning this liquid into buttons, pool balls, combs, back of hair brushes and similar articles consists, first of straining the milk through a cloth in order to remove every vestige of cream, and then mixing it with a substance the ingredients of which are a secret of the inventor, and compressing it. At the end of three days the substance is as solid as celluloid and is ready to be cut and shaped in any way the manufacturer wishes.

At present a factory in Holland is engaged in fashioning the hardened milk into various articles, buttons being the chief. The buttons made in this particular way differ very little in appearance from ordinary bone buttons. They are a creamy white in appearance, but can be colored black or red or any other color by simply mixing the coloring matter with the milk before the hardening process begins. They are said to possess advantages over the bone and celluloid article in being less brittle and less liable to chip. For this reason the billiard balls and pool balls which have been made in England from this substance have found favor where a cheap ball is required instead of the expensive ivory balls.

For combs the milk substance has been found to be especially well adapted, as it is smooth and delicate to the touch, and derives from its creamy origin a glossy surface that is just the thing for combs. In the same way it is a good substitute for ivory in billiard and pool balls.

The great difficulty the inventor had to overcome, and which he grappled with unsuccessfully for seven years before he hit upon the right plan, was to keep the color of the substance of a uniform shade. According to Mr. J. R. Burdick, of Brooklyn, who has known the inventor for many years, the early experiments with milk buttons always resulted in the turning out of a substance hard enough, to be sure, but breaking out in spots of yellow, like freckles on a country boy.

Returns a Wreck.

GEORGETOWN, OHIO, April 6.—Samuel Cochran, whose sudden disappearance a year ago startled the tobacco markets of Cincinnati and those who were his sureties, amazed all his friends by returning to his home. Since leaving, Cochran's health has been bad, and he returns a complete wreck to meet the accusations of his creditors.

The Christian Church was broken into by a thief Tuesday night, entrance being effected through one of the chapel windows in the rear. The desk in the pastor's study was then forced open and ransacked, but nothing is missing. The fellow was evidently looking for cash only, as he left the communion set after taking it out and examining it. The thief was no doubt the same individual who recently visited the Church of the Nativity.

SUIT, ETC., VS. CRAWFORD.

Opinion of the Court of Appeals by Judge Paynter in the Above Case.

The Court of Appeals has reversed the case of Suit, etc., against Crawford, taken up from Robertson County. Judge Paynter rendered the opinion, as follows:

This action was brought by the widow and children of Leonard Pyles on a promissory note, which, it is claimed, was an asset of the estate of the decedent.

Leonard Pyles died in 1876 intestate. An administrator of the estate was duly appointed. It is alleged he settled his accounts as such with the County Court and was discharged as administrator and from all liability on the note in suit, and that he thereupon turned the note over to the plaintiffs. The court sustained a demurrer to and dismissed the petition upon the ground that the action could only be maintained by the personal representative.

We recognize the rule to be that heirs and devisees can not in their own names prosecute suits to recover the unadministered estate of the decedent, but that such actions can only be maintained by the personal representative, except in cases where the personal representative refuses to administer upon the estate sued for or to prosecute suits for its recovery, or in a case like Bellamy's administrator vs. Bellamy, 3 Bush, 109.

The intestate died nineteen years before this action was brought. His personal representative had settled his accounts as such and been discharged. The presumption is that all the debts of the decedent have been paid. At any rate none could have existed when the suit was brought, as the lapse of time had barred a recovery on any unsatisfied claim that may have existed. It follows that no one had any interest in the note except the heirs-at-law. The personal representative had relinquished any right he had in it by settling his accounts as administrator and turning the note over to the plaintiff.

We are of the opinion that it is an determined asset. The proceeds of the note are not liable to pay the debts of the intestate, neither has the personal representative any interest therein for reimbursement or protection, as he surrendered the note to its real owners.

Under such circumstances it seems to us to be unreasonable to require that an administrator de bonis non be appointed, and allow him alone to maintain the action, as it would put the heirs to considerable expense. Besides, as this is an administered asset, an administrator de bonis non would have no control over it.

We are of the opinion that when the administrator settled his accounts, and turned the note over to the plaintiffs, they were vested with the right to collect the note and maintain an action on it.

The judgment is reversed, with directions that further proceedings conform to this opinion.

MURPHYSVILLE.

Mr. A. R. Howard is in Millersburg on business.

Miss Nellie Buckley's many friends are glad to see her well again.

Dr. T. Huddleston is spending a while with his parents at Carlisle.

Messrs. Johnson, Gabby and McIlvaine were here last Wednesday.

Miss Orna Hunter is spending a few days in Millersburg with relatives.

Misses Bettie Rhodes, Mirah Murphy and B. Forman spent Monday in Maysville.

Quite a crowd of boys and girls from Sardis attended church here last Sunday evening.

Misses Marie and Margaret Buckley visited friends at Mill Creek and Mayslick last week.

Brother Fields preached his farewell sermon at the Presbyterian Church last Sunday evening.

Mrs. Amanda Elliott and daughter have returned to their home in Maysville after spending a few days here with friends and relatives.

We think it very strange that the Mayslick boys and our boys can't be suited at home, then there would not be so many buggies to be taken to the shop on Monday morning.

MAYSICK.

Plenty of rain.

Mr. James Pogue visited at Ashland last week.

Mr. Tom Guilfoyle, of Maysville, was in town Monday.

Mr. John Peed and daughter, of Millersburg, spent last week here.

Dr. Harry Yancey, of Carlisle, is visiting his parents at this place.

Mr. and Mrs. John Hanley, of Bourbon County, visited relatives here last week.

Quite a large crowd of buyers attended the stock sale of A. P. Gooding Saturday.

The Guilfoyle property sold at this place Saturday was bought by the present owner, Mrs. Con Guilfoyle.

Rev. F. M. Tindler was called to Winchester to attend the funeral of his sister, Miss Mamie, who had been quite ill for months.

Among the candidates seen in our midst Saturday were Geo. W. Sulser, A. F. Respass, Clarence L. Wood, W. H. Hawes and C. Burgess Taylor.

Mr. Collins Blatterman, of Maysville, was here Monday looking after the interests of his father, who is making the race for School Superintendent.

Mr. G. W. Blatterman is a candidate for re-election to office of School Superintendent, and is a man of noble qualities and has faithfully performed the duties of this office, a fact which speaks for itself when the people of Mason County look at the marked improvement of the schools in the late years. We wish our friend a world of success and hope the voters of this county will think carefully and give him their support.

How much business can a man do whose system is in a state of disorder? Headache is only a symptom. It is not a disease. The pain in the head is the sign of rebellion. There have been mistakes in diet and other abuses.

A STRONG TICKET.

Judge Harbeson and Commonwealth's Attorney Sallee
Unanimously Nominated For Re-election.

The Convention at Vanceburg Was a Democratic Love Feast—Proceedings of the Meeting.

The district convention at Vanceburg Wednesday afternoon was opened with prayer by Rev. M. V. P. Yeaman, who invoked divine blessings upon the deliberations of the meeting.

Mr. George B. Kearns, of Bracken, called the convention to order. The first thing on the program was the election of a temporary Chairman, and Mr. A. O. Stanley, of Fleming, presented the name of Judge A. E. Cole, of this city, in a very happy effort. The nomination was seconded by several and the Judge was unanimously chosen. He was escorted to the chair and in a very graceful manner thanked the delegates for the honor conferred upon him.

Mr. Hugh S. Young, of the Brooksville Review, was chosen Secretary, with Col. Sam Stairs, of the Dover News, Mr. Hiram Duly, of the Flemingsburg Times-Democrat, J. E. Thompson, of the Augusta Chronicle, G. C. Wilson, of the Greenup Democrat, J. Noel Johnson and M. J. McCarthy were elected Assistant Secretaries.

On motion the temporary organization was made permanent, and nominations for Circuit Judge were declared in order.

Hon. E. L. Worthington nominated Hon. James P. Harbeson, of Fleming. The nomination was seconded by every county in the district, and Judge Harbeson was unanimously chosen as the nominee.

Mr. Will Cole, of Greenup, nominated Hon. James H. Sallee, of this city, for Commonwealth's Attorney, and after several other delegates had paid him a warm tribute he was, by a standing vote, unanimously chosen the nominee.

It was a regular love feast. The best of feeling prevailed throughout the meeting, and all the delegates were in such fine fettle it was no trouble to start the oratorical ball rolling. Indeed it looked like each of the delegates desired to pay a tribute to Messrs. Harbeson and Sallee, and these gentlemen had every reason to feel proud over the manifestations of esteem displayed. It was in itself a high compliment to the nominees to have the large number of delegates present when it was known before hand that there would be no contests. Only the personal popularity and the ability of these gentlemen could attract so large a number of delegates from every county in the district.

On motion of John C. Lovel a committee of one from each county was appointed to inform Judge Harbeson of his nomination, (Mr. S not being in town). The committee consisted of John C. Lovel, of Mason, Judge Boude, Bracken, G. C. Wilson, Greenup, George Beckett, Fleming, and Robert D. Wilson, of Lewis. The Judge's appearance was the signal for great applause and after order was restored he accepted the nomination in a few well chosen and timely remarks, warmly thanking the delegates for thus honoring him again.

A resolution was passed by the convention that the chicken cock be declared the device on the ballot of the candidates named.

Resolutions were also passed thanking the good people of Vanceburg for the many courtesies extended, for the band and to the ladies who graced the convention by their presence.

Mr. R. D. Wilson moved that the proceedings be published in the Democratic papers of the district, and it was so ordered.

NOTES.

The delegates from Mason were: Judges L. W. Robertson, A. E. Cole, G. S. Wall and Thomas R. Phister, Hons. C. B. Poyntz, E. L. Worthington and R. B. Lovel; Messrs. M. F. and J. N. Kehoe,

Jas. W. Fitzgerald, John C. Lovel, John F. Ryan, S. P. Perrine, C. D. Newell, C. Burgess Taylor, Frank Goodwin, ex Sheriff John W. Alexander, Joseph Alexander, Sam. Stairs and M. J. McCarthy. Mr. Lovel was accompanied by his wife and his grandson, R. B. Lovel, Jr.

Judge Cole was a model presiding officer.

The next time Judge Harbeson speaks of modest maidens, an explanation will be in order.

Just think of it, Gilbert Cassidy's barrel of water exhausted, but it did not keep him from talking.

THE BULLETIN is under many obligations for courtesies extended us by Mr. George Weller, of Vanceburg, while attending the convention.

Judge Robertson's eulogy of Commonwealth's Attorney Sallee was great, especially the part where he referred to him as a bachelor. Jim should have heard it.

Mason County was well represented, among the speakers being Judge Robertson, Hon. E. L. Worthington and Mr. Will Cole, a former citizen of the county, but now of Greenup.

BICYCLE RECEPTION

At Y. M. C. A. Friday Evening—Enjoyable Program—The "Reds" To Make Things Warm For the Blues.

A pleasant social event will take place at the Y. M. C. A. rooms to-morrow evening, beginning at 7:30 o'clock, a special reception to wheelmen and their friends, a novel feature of which will be an exhibition of 1897 wheels given by local dealers. Mrs. J. T. Kackley will read a bicycling experience, and Dr. H. K. Adamson will speak briefly of bicycling and its benefits. Then there will be a recitation and two or three musical numbers. Everybody invited.

The gymnasium classes will have to be conducted this afternoon at 4 and this evening at 7 o'clock instead of Friday on account of the reception.

The "Reds" held an enthusiastic meeting last night, and determined to do no more loafing along to give the "Blues" a chance to keep up.

From this time on the "Reds" will go for all in sight, and if the "Blues" ever get within hailing distance they'll be lucky fellows. The score last night stood:

"Reds".....36
"Blues".....29

The Discovery Saved His Life.

Mr. G. Caillouette, druggist, Beaversville, Ill., says: "To Dr. King's New Discovery I owe my life. Was taken with La Grippe and tried all the physicians for miles about, but of no avail and was given up and told I could not live. Having Dr. King's New Discovery in my store I sent for a bottle and began its use and from the first dose began to get better, and after using three bottles was up and about again. It is worth its weight in gold. We won't keep store or house without it." Get a free trial at J. James Wood's drug store.

THE FARMERS AND SHIPPERS.

Result of the Annual Meeting of the Stockholders of This Tobacco Warehouse Association.

The annual meeting of the Farmers' and Shippers' Tobacco Warehouse Company was held this week at Cincinnati, and in addition to the reports of the business done during the year the annual election was held. The same Board of Directors was elected as follows: J. S. Withers, Cynthia, Ky.; W. H. Robb, Helena, Ky.; Rod Perry, Warsaw, Ky.; Briggs S. Cunningham, S. R. Burton, S. M. Felton and H. H. Peck.

The annual statement presented to the stockholders showed the net profits for the year ending April 1, 1897, on the \$500,000 capital stock, were \$42,481.01. The offerings for the year were 27,723 hogsheads; actual sales, 20,147 hogsheads, and the receipts, 19,211 hogsheads. The gross amount of the actual sales reached \$1,244,071.30, and the sales averaged \$61.75 per hogshead gross. There was a falling off in the early part of the past fiscal year, but this was made up by an increase from October, 1896, to April, 1897.

Something to Know.

It may be worth something to know that the very best medicine for restoring the tired-out nervous system to a healthy vigor is Electric Bitters. This medicine is purely vegetable, acts by giving tone to the nerve centers in the stomach, gently stimulates the liver and kidneys and aids these organs in throwing off impurities in the blood. Electric Bitters improves the appetite, aids digestion, and is pronounced by those who have tried it as the very best blood purifier and nerve tonic. Try it. Sold for 50c. or \$1 per bottle at J. J. Wood's drug store.

Organ and Dog In Sympathy.

There is an old adage that "music hath charms to soothe a savage breast," but this is not always the case. At the corner of Beacon and Mount Vernon streets in Boston may be found almost every evening just at dusk an old lady bundled up in shawls and wraps turning the crank of a little paper hand organ. The sounds issuing from the instrument cannot be termed sweet, and to a hypersensitive ear they are painful.

The other evening, as the observer of the Boston Post was passing the musician, a Gordon setter came running along. He had evidently lost his master, for there was an anxious expression on his handsome face. When in front of the organ grinder he stopped. The absence of his owner was trying enough, but that music was the last straw. Throwing back his head, he gave a howl that sounded like the wail of a lost soul. Not once, but time and again the animal poured forth his sorrow. Had the observer been a theosophist in belief, he would have declared that the dog contained the spirit of a musical critic. Yet the old lady was oblivious to it all, and the organ played on.

Rothschild's Broken Cornice.

One of the features of the magnificent London mansion of Lord Rothschild, which adjoins Aspley House, the residence of the Duke of Wellington, is the unfinished piece of superb cornice in the great marble hall. This is in accordance with the Hebrew precept which forbids any devout believer in the Talmud to regard his home on earth as anything but temporary and therefore incomplete. Lord Rothschild's particular hobby is the Jews' free school in the Whitechapel district of London, which has an average daily attendance of 4,000 children, probably the largest roster of any school in the world. This institution is maintained entirely by the peer, and it is probably the only school of the kind where each child is provided free of cost with a good breakfast of hot milk and bread and butter before beginning the day's studies. Each pupil receives a new suit of clothes once a year, and Lord Rothschild encourages thrift among the pupils by paying them an interest of 10 per cent per annum on whatever money they are able to save or earn and to put by. —Chicago Record.

Wealthy Farmer Suicides.

PLEASANTVILLE, O., April 8. — Al Burgner, a wealthy farmer of Madison township, committed suicide in a sensational manner. He bought some cattle and conversed about his purchase in his usual spirits. Arising from the table he went to his room, changed clothes and seating himself on the bed fired a bullet through his heart.

Will Protect the Flag.

BELLEFONTAINE, O., April 8. — The members of the G. A. R. and the Junior Order United American Mechanics have offered a large reward for information leading to the conviction of any person discovered destroying flags, ropes or staff, upon any of the schoolhouses in this vicinity.

Quite Natural.

They were bowling along the boulevards just after their arrival in Paris the other day. They were Americans, and the wife was more conversant than the husband with the French language. Most of the time since their arrival had, of course, been spent in racing from one hotel to another in search of various fellow countrymen. This accomplished, the wife said that they would drive to the Louvre, where, it so happened, neither of them had ever been before. They accordingly made for the big square, with its shops on one side, the hotel on the other and the museum in front. As the latter burst upon the wife's vision, bringing to mind so many cherished associations and significances, she could hardly contain herself. "Oh," she cried, fairly jumping up and down with excitement, "there's the Louvre! Do you see, my dear? It's actually the Louvre." The husband "saw" all right enough, but not what the wife intended. The big art gallery is not labeled in any way, you know, and moreover, the twain had spent all their previous time in hunting up their friends at various hostels. With his eyes, therefore, fixed upon the sign "Hotel de Louvre," the husband calmly remarked, "Well, who's stopping there?" —New York Sun.

Guarding Her Employer's Secret.

A Lasalle street lawyer, who had spent three months in securing a power of attorney which would enable him to complete an important real estate deal, gave the paper granting him the desired authority to his stenographer.

He wanted a copy of the instrument for reference. A few minutes after the young lady had received the paper she handed to her employer the copy of the power of attorney.

"Where is the original?" queried the lawyer as he looked at the unconcerned typewriter.

"Oh, I tore that up," said the young woman with a smile. "I tore it into fine pieces so that no one would get hold of it."

The astonished lawyer spent the next half hour in picking bits of paper out of the waste basket. These he pasted on a sheet of paper and presented the patchwork to his clients to convince them of his good faith in their interests. He is now using the mails to secure again his power of attorney. —Chicago News.

An Ohio Girl Missing.

MARIETTA, Pa., April 8. — Considerable apprehension is felt over the whereabouts of Miss Helen Delmar of Akron, O., who has been visiting relatives here. She was last seen Tuesday when walking along the bank of the Susquehanna. Yesterday on the river bank were found her hat and gloves, and pinned to them a note which simply said "Good by." It is feared she may have committed suicide. She came here about two weeks ago and seemed somewhat morose, but later became a little more cheerful.

Revolt Against Portuguese Government.

LONDON, April 8. — Dispatches from Pretoria and Delagoa Bay say that the whole of Gazaland is in open revolt. Twenty-five thousand natives have rebelled against the Portuguese government. The principal rising is only about 40 miles from the Transvaal border. The Portuguese troops are mobilizing rapidly and the situation is regarded as most serious.

A Double Murderer Suicides.

STOCKTON, Cal., April 8. — O. F. Kleupfer, who killed C. R. Dodge and Alexander Borland at New Hope six weeks ago, and who has since been in the county jail here, hanged himself in his cell this morning with a handkerchief tied to the grating of the window. He was dead when found.

Minister McKenzie Seriously Ill.

LIMA, Peru, April 8. — The illness from which United States Minister James A. McKenzie has been suffering for some days has developed the most serious symptoms and attacked the brain. His physicians have little hope that he will recover.

Republicans Will Meet in Detroit.

ST. PAUL, April 8. — Secretary M. J. Dowling of the Republican National league announces that the next convention is to be held at Detroit, Mich., July 13, 14 and 15. At least 3,000 delegates are expected to be in attendance and the usual reduced rates will probably be secured.

Death of a Postmaster.

VALPARAISO, Ind., April 8. — John Rinker, postmaster at Tassinong, this county, for 40 years, died suddenly yesterday. He was a soldier, 74 years old.

Returned Demented.

CONNERSVILLE, Ind., April 8. — Will Young, well known, who left here under a cloud, returned Friday, his mind being shattered.

SENATE AND HOUSE.

Nothing Done in Either House After Passing the Relief Bill.

WASHINGTON, April 8. — After the senate had passed the resolution appropriating \$200,000 for the Mississippi river flood sufferers, Mr. Morgan continued his speech begun Tuesday in support of the resolution declaring that a state of war exists in Cuba and recognizing both parties as belligerents.

Mr. Morgan referred to General Weyler's orders herding together people in the towns and villages of Cuba for the purpose of starving them. How long, he asked, was this captain general to continue in power, issuing new orders day after day, as his whim or caprice might dictate, resulting in the utmost harshness against American citizens in Cuba? At 2 o'clock the senate went into executive session and at 2:20 p. m. adjourned.

The most interesting feature of the house session was a passage between Representative Simpson, the Kansas Populist, and Speaker Reed. Mr. Simpson gave voice to the opposition to the speaker's temporary policy of inaction which has been smouldering in some quarters by speaking to a question of privilege. He finished a fiery denunciation of the speaker by demanding that he appoint the committees of the house at once and gave notice that he would prevent any more attempts to do business by unanimous consent.

Several Republican members attempted to stem the tide of Mr. Simpson's attack, but Mr. Reed seemed to desire to hear it and declined to interfere. He listened calmly to the speech and then with his usual coolness and lucidity replied that the speaker was merely the instrument of the house, that he had enforced what he supposed to be the policy desired by the majority and that the house had power to command the speaker if it disapproved of his course. The Republicans expressed their approval by a round of hand-clapping. At 1:20 p. m., the house adjourned until Saturday.

BATTLESHIP IOWA FAST.

She Averaged Seventeen Knots an Hour Over the Regular Government Course.

BOSTON, April 8. — The battleship Iowa, the last of the premium-built battleships of the navy, earned yesterday for her builders, Messrs. William Cramp & Son of Philadelphia, \$200,000, by making an average of 17 even knots an hour over the regular government course off the Massachusetts coast in the four hours' speed trial required by the government under the contract.

The Iowa, by her grand work, proved herself to be superior to either the Indiana or Massachusetts by a considerable fraction of a knot and is today the acknowledged queen of the American navy, if not the most formidable battleship afloat.

Throughout the trial the boat behaved admirably. The heavy turrets placed well above the water line gave her a much greater roll than the Indiana or Massachusetts, but except for this she was much steadier than the other battleships.

The tidal corrections will not cut the 17 knots, but on the other hand will probably increase it to some slight extent.

The Iowa anchored off Boston light at 4 o'clock, and remained there all night, leaving at 5 o'clock this morning for Philadelphia.

A Great Oil Strike.

MONTPELIER, Ind., April 8. — The diamond oil company of Indianapolis brought in a monster well on the Godfrey reserve yesterday. It started at 500 barrels a day and eclipses all the other rich finds of the company. For 30 minutes after the nitroglycerin exploded a column of oil stood 60 feet in the air. The flow was shut in after much difficulty. Producers are excited over the new wonder. The Standard and private companies are preparing to test the reserve thoroughly, and work has already begun.

Frightened a Woman to Death.

BLOOMINGTON, Ind., April 8. — John Denny, a well known citizen, living several miles north of this city, is accused of frightening Mrs. Albert Stephenson to death. Mrs. Stephenson was very ill, and it is claimed that while acting like an insane man he scared her so that she died a few hours after of heart disease. Denny was brought to this city and placed in jail, charged with insanity, but as he had not been properly tried, he was released on a writ of habeas corpus.

A Dangerous Man.

MITCHELL, Ind., April 8. — David Grady, who figured in a cutting affray at Bloomington, is a well known character here. Last summer he attempted to kill William Kean, telegraph operator. He was confined in jail for several months, but was finally released, conditionally, that he go to the soldiers' home. Upon one occasion here he literally chopped to pieces a live cow.

Probably fair weather in the morning; threatening weather and rain in the evening or night; winds shifting to northerly.
